

Renata Rossetti Leandro

Full-Stack Web Developer

London, United Kingdom

PROFESSIONAL SUMMARY

Career-changer transitioning into full-stack web development, combining a Bachelor's degree in Graphic Design, more than 17 years of administrative and financial management, and recently completed training across the modern web stack. I build responsive, accessible applications end to end — from clean, user-focused front-ends (HTML5, CSS3, JavaScript, jQuery, Bootstrap, React) to data-driven PHP & MySQL back-ends. My design background and business experience bring a strong eye for usability, attention to detail and reliability. Now seeking my first role as a web developer.

TECHNICAL SKILLS

Front-End	HTML5, CSS3, JavaScript, jQuery, AJAX, Bootstrap, React.js
Back-End	PHP, MySQL, Python, Java
Tools & Workflow	Git, REST-style APIs, responsive / mobile-first design
Design	UI layout, typography, visual identity (Graphic Design background)
Mainframe	COBOL, IBM Db2, JCL, TSO, VSAM

PROJECTS

Gazetteer — Interactive World Map

A mobile-first web application that lets users explore any country in the world. Selecting a country centres an interactive map on it, draws its borders and loads live information such as capital, population, currency and weather.

Tech stack: HTML5, CSS3, JavaScript, jQuery, AJAX, Bootstrap, PHP, Leaflet.js, GeoNames & OpenWeather APIs

Company Directory — Database-Driven CRUD App

A management system for personnel, departments and locations with full create, read, update and delete functionality, live search and filtering, served from a normalised MySQL database through a tabbed Bootstrap interface.

Tech stack: HTML5, CSS3, JavaScript, jQuery, AJAX, Bootstrap, PHP, MySQL

PROFESSIONAL EXPERIENCE

Administrative & Financial Manager, Bauhaus Sistemas

Jul 2008 – Present

Criciúma, Brazil

- Manage the company's financial cycle: payroll preparation, attendance analysis and payment calculations, ensuring accuracy of all information.
- Process supplier payments and invoices and integrate financial data into the SENIOR financial system.
- Perform reconciliations, cross-checking information to identify and correct inconsistencies.
- Produce monthly financial statements, including profit & loss and cash-flow reports.
- Lead and prioritise the work of a small team and manage employee relations.
- Design graphic materials — software UI layouts, folders, banners, billboards and sales presentations.
- Support recruitment by advertising vacancies, screening CVs and conducting candidate interviews.

EDUCATION & TRAINING

Full-Stack Web Development Course

2026

Hands-on training across the full web stack; built and deployed two complete applications (see Projects).

Bachelor's Degree in Graphic Design, Faculdade SATC

2009 – 2013

ONLINE COURSES

Self-directed online study in: Full-Stack Development, JavaScript, React.js, PHP, Python, Java, jQuery, HTML5, CSS, and mainframe technologies (COBOL, IBM Db2, JCL, TSO, VSAM).
